Annual Subject Index

January 15–December 31, 2000

Adolescent medicine

Breast problems in the adolescent. 3/30:56-79
Revisiting the adolescent male genital examination. 2/29:83-98

AIDS/HIV

Identifying HIV infection. 5/15:55-77

Alcohol

Dealing with the alcohol controversy. 3/15:211-225
Meeting the challenge of alcoholic liver disease. 6/15:112-130

Allergy

Eliminating allergy triggers. 4/15:107-121
New approaches to allergic rhinitis and asthma. 10/15:108-122

Cancer

A breakthrough in cervical cancer treatment. 1/30:70-90
Bone marrow transplantation for cancer: Exploring the options. 3/15:74-92
Cancer screening and management. 5/15:78-92
Carcinoma of unknown primary site: Which patients are treatable? 9/15:81-95
Contemporary management of bladder cancer. 4/15:72-90
Managing kidney cancer—a malignancy on the increase. 4/15:91-102
Managing oncologic emergencies. 10/15:96-106

Cardiovascular disease

A practical approach to lower-extremity arterial disease. 5/30:96-112
A step-by-step guide to the best heart failure care. 6/15:154-170
Beta-blockers and ACE inhibitors: New data, old myths. 7/15:62-84
Choosing a statin. 9/15:124-141
Current thinking on silent ischemia. 1/15:92-105
Do antioxidants prevent heart disease? 6/30:74-93
Familial hypercholesterolemia: Drugs may not be adequate. 3/15:172-182
HRT and CHD: Balancing risk and suggested benefit. 10/30:43-55
Multidisciplinary heart failure care. 12/30:34-44
Prevention of sudden cardiac death. 2/29:58-81
Staying up-to-date on pericardial disease. 10/15:20-40
Strategies for raising HDL cholesterol levels. 1/15:151-157
Strategies to prevent readmission for heart failure. 10/15:87-95
Uncovering the cause of syncope. 5/30:39-59
Update on mitral valve prolapse. 3/15:39-56
Using cardiac enzymes and markers in acute MI. 7/30:12-25

Case & Comment

Abnormal fingernails in a middle-aged man. 10/30:81-82
A breast mass and ALL. 8/30:64-67
Acute abdomen in a patient taking warfarin. 6/30:94-95
A localized, recurrent, abdominal rash. 1/15:159
A lump in the throat. 1/15:159-160
A patient with cough and loss of voice. 8/30:64
A patient with Crohn's disease and new symptoms. 8/15:115
A patient with HIV and painful leg lesions. 6/30:94
A stiff neck and a normal CT scan. 5/30:122-123
A syncopal episode. 3/30:137-139
Blistering rash in a 5-year-old girl. 6/15:172-173
Chronic dyspnea and low-grade fever. 10/15:131
Confusion and fever in a patient with diabetes. 9/15:145-146
Confusion and memory loss. 2/29:117-118
Cutaneous lesions in an HIV-positive patient. 5/30:122
Depression, deficits, and gynecomastia. 9/15:146
ECG changes in a trauma patient. 3/15:228-229
Flulike symptoms and lower extremity swelling. 11/30:87-88
Foot rash as a vacation souvenir. 2/29:116-117
Forearm and facial edema in a 64-year-old man. 9/30:74-75
Galactorrhea and displaced pituitary. 10/30:82
HIV-positive with headache and fever. 4/30:108
More than tooth pain. 1/30:131
Multiple primary neoplasms in a 47-year-old man. 3/15:226-228
Oh, by the way, doctor 4/15:224-225
Persistent oral ulcers. 3/30:137
Progressive dyspnea and pleuritic chest pain. 12/15:109-110
Postpartum headache with vomiting. 4/15:223-224
Should a patient with an ICD drive? 9/30:73-74
Should this patient get a pacemaker? 1/15:160-161
Skin lesion, fever, and infiltrate in a patient with HIV. 10/15:127-131
Sudden choking spontaneously resolved. 1/30:130-131
Swelling of the left hand and lower arm. 6/15:173
Syncope in a patient with aortic stenosis. 8/15:115-116
Uncommon community pathogen. 4/30:108-109
Varicella reaction or something else? 11/30:88

Clinical Clips

Adverse cardiovascular effects of sildenafil questioned. 8/15:122
Are newer antihypertensive therapies necessarily better? 3/15:230
Aspirin and heart disease prevention in hypertensive men. 9/15:152
Aspirin reduces risk of venous thromboembolism. 6/30:98
Assessing the likelihood of prostate cancer metastasis. 7/15:146
Asthma intervention in an urban setting. 5/15:191
Can metal stress testing predict cardiac events? 2/29:120
Can sunscreen prevent nevi development in white children? 8/30:70
Cervical cancer screening among HIV-positive women. 5/30:124
Chicken soup inhibits inflammatory response linked to colds. 12/30:64
Chronic fatigue syndrome in an ethnically diverse population. 1/30:132
Colonoscopy for primary cancer screening? 10/15:134
Coronary heart disease: Bald men at risk. 4/15:226
Corticosteroids reduce the risk of asthma-related death. 10/15:134
Decreasing the risk of diabetic complications. 4/30:110
Depression's effect on mortality in older persons. 1/15:163
Depressive symptoms predict AD development in educated persons. 12/15:112
Detection of mental health problems in minority populations and men. 9/15:152
Do antihypertensive agents affect breast cancer risk? 4/30:110
Does dietary fiber predict risk factors for heart disease? 1/30:132
Does eating whole grain foods reduce ischemic stroke risk in women? 12/15:112
Does vitamin E reduce the risk of adverse cardiovascular events? 4/15:226
Elevated uric acid level suggests a higher cardiac death risk. 7/15:146
Exercise lowers stroke risk in women. 8/30:70
Family history, OC use, and breast cancer risk. 12/30:64
Glucosamine and chondroitin: Effective therapies for OA? 5/30:124
Hostile young adults boost their risk of atherosclerosis. 7/30:64
How stroke impacts driving ability. 2/15:228
How vitamin E and estrogen may prevent postmenopausal atherosclerosis. 2/29:120
Is aspirin effective for acute ischemic stroke? 8/15:122
Is it depression or dementia? 7/30:64
Is glaucoma undertreated in African Americans? 5/15:192
Is OCD familial? 6/30:98
Keeping Crohn's disease at bay. 8/15:122
Lowering CV risk: Diltiazem versus diuretics and beta-blockers. 10/15:134
Lp(a) in postmenopausal women. 6/30:98
Maintaining sinus rhythm with amiodarone. 6/15:174
Managing menopausal symptoms in breast cancer patients. 9/30:78
Maternal colorectal carcinoma linked to disease in offspring. 11/30:92
Metformin plus insulin: effective therapy for type 2 diabetes. 3/30:142
Moderate drinking and hypotensive risk. 4/15:226
Obstacles to the prompt diagnosis and treatment of melanoma. 2/15:228
Optimal ACE inhibitor dosages for chronic heart failure. 3/30:142
Otitis media susceptibility may be inherited. 2/29:120
Physical activity reduces mortality risk in older men with CHD. 11/30:92
Predisposition to ulcer and the risk of *H pylori* infection. 3/30:142
Preventive care for elderly African Americans in local health center. 5/15:191-192
Protecting against macular degeneration with vitamin E. 1/15:163-164
Providing care may increase mortality risk. 3/15:230
Pulse pressure predicts cardiac risk. 10/30:86
Relieving allergic asthma with anti-IgE antibody. 3/15:230
Ropinirole therapy for early Parkinson's disease. 7/30:64
Serum ACE activity assay identifies nonadherent patients. 2/15:228
Suboptimum rates of aspirin use among CAD patients. 5/30:124
Testosterone for poor sexual functioning after surgical menopause. 11/30:92
The benefits of weight loss for asthma patients. 6/15:174
The best surveillance method after polypectomy. 8/30:70
The effect of regular exercise on coronary endothelium. 4/30:110
The risks of antibiotics in *E coli* O157:H7 infection. 9/15:152
Unequal access to medical therapy for AMI? 10/30:86
Urge incontinence increases the risk of fractures in elderly women. 9/30:78
Urinary incontinence associated with hysterectomy. 10/30:86
Using opioids to reduce osteoarthritis pain. 6/15:174
Using SSRIs to treat PMS. 12/15:112
Using transdermal testosterone for myocardial ischemia. 12/30:64
Women with weight problems miss out on crucial screening tests. 7/15:146

Why more patients with chest pain do not call EMS. 9/30:78
Why weight loss strategies are not working. 1/15:163

Dermatology
The value of sunscreens. 6/15:103-107

Diabetes
CVD in patients with diabetes. 9/30:50-72
Diabetic neuropathy: Update your management. 9/15:47-58
Intensive management of type 2 diabetes. 4/30:91-107
Preventing amputation in patients with diabetes. 5/15:113-133
Reducing the burden of diabetes and CVD. 5/15:28-48

Diagnostics
Advances in imaging technology. 2/15:206-222
A quick neurologic examination. 2/15:161-174
Choosing a stress test. 2/15:81-109
Five diagnostic controversies. 2/15:179-205
Genetic testing for cancer. 2/15:130-143
Improved laboratory diagnosis. 2/15:57-79
Molecular diagnostics in infectious disease. 2/15:110-129
Performing a focused physical examination. 12/15:76-106
Relative bradycardia as a diagnostic clue. 2/15:223-227
Taking advantage of home testing and monitoring. 2/15:144-159
The newest CLIA-waived office tests. 2/15:29-54

Drugs
Drug-herb interactions: How vigilant should you be? 10/15:41-68
Innovations in drug delivery. 1/15:107-137
Intelligent prescribing in diverse populations. 5/15:135-149
New developments in antibiotics. 8/15:73-89
Prescribing for older patients: 5 points to remember. 8/15:45-52
Recent strides in antithrombotic therapy. 8/15:20-42
Taking advantage of antiobesity medications. 11/30:34-62
The challenges of oral anticoagulation. 12/15:33-49
The essentials in pediatric dosing. 8/15:94-114
Trends in self-care. 8/15:57-72

Editorials
A critical shortage. 5/30:9
A new age of diagnostic testing. 2/15:8
A new framework of care. 5/15:10-12
A piece of cake. 4/30:9
At home and abroad. 6/30:6
Business as usual. 3/30:9
Buying a new car. 7/15:9
Diagnostics 2000. In this special issue. 2/15:9
Discontinuity of care. 4/15:9
Diversity revisited. 9/15:9
If I had a million dollars … 9/30:6
Give us warning. 11/15:6-8
Lessons from the Navaho. 3/15:7
Miracles do happen. 11/30:6
New drugs, new questions. 8/15:9
Presidential politics up close and personal. 2/29:7
See the USA. 6/15:9
Small steps, big breakthroughs. 7/30:6
The subtlety of health care rationing. 12/15:6
What's the real cost of switching drugs? 10/30:6
When the goal lines move. 10/15:6
Why is the bloom off primary care? 8/30:10

Editor's memos
Capitalizing on the challenges in patient education. 1/30:9-10
24x in Y2K. 1/15:7

Emergency medicine
Drowning: A preventable cause of death. 4/15: 129-156

End-of-life care
A detailed examination of advance directives. 11/15:92-108
Ethical decision making at the end of life: A series of case studies. 11/15:130-136
Management of pain and other discomfort. 11/15:38-71
Talking with patients and families. 11/15:16-36
The complexities of assisted suicide. 11/30:65-86
The culture of medicine must change … 11/15:11
The role of life-prolonging technology. 11/15:113-129
The virtues of hospice. 11/15:72-91

Enhancing your practice
An update on telemedicine. 3/30:96-109
Enhance your practice with evidence-based medicine. 2/29:32-53
Using the Internet and e-mail in your practice. 12/30:45-62
Using words to improve your patient's health. 3/15:133-141
Working with hospitalists to improve continuity of care. 1/15:138-147

FlowCharts
Managing category III prostatitis. 4/30:30
Managing drug therapy for heart failure. 6/15:168
Managing drug therapy for type 2 diabetes. 4/30:103
Managing dyspepsia. 1/15:47
Managing PID. 5/30:87

Gastroenterology
A practical approach to acute lower GI bleeding. 2/29:23-31
Current management of upper GI tract bleeding. 1/30:20-42
Empiric therapy for nonulcer dyspepsia. 1/15:35-55
Evaluation of the acute abdomen. 7/30:26-39
Which drug class is best for GERD? 9/15:26-44

Geriatrics
Aggressive treatment of hypertension. 8/30:14-48
Alcohol problems in the elderly. 10/15:70-86
Chronic pain management in the elderly. 9/30:31-48
Effective approaches to depression in older patients. 9/15:65-80
Recognizing the signs of elder abuse. 10/30:56-71

Hyperbaric medicine
An overview of hyperbaric medicine. 7/15:122-143
Diving medicine: A comprehensive review. 6/30:20-54

Hypertension
Aiming for lower than 140/90 mm Hg. 4/15:160-176

Infectious disease
Emerging infections: New pathogens and changing resistance patterns. 4/15:34-47
Microbes on the menu: Recognizing foodborne illness. 6/15:45-75
Monitoring HPV infection. 3/15:142-167
Will anything work for the common cold? 11/30:15-33

Integrative medicine
Alternative treatments in cancer: A growing source of hope. 7/15:85-96
Can yoga tame OCD? CAM spotlight. 4/15:14-19
SAM-e: For depression and more? CAM spotlight. 3/15:33-37
The analytical study of herbs: As yet, a fledgling science. CAM spotlight. 1/15:14-22
Sorting out health claims about soy. 12/15:14-28
Using complementary medications to treat BHP. 4/15:191-203

Medicine in the News
Advances in tick-borne disease diagnosis. 2/15:14
AMA creates online service. 8/30:10
An update to JNC VI. 7/15:13
A prescription for pumping iron. 4/30:11
Are clinical breast examinations useful? 9/15:12
A reversal in breast cancer treatment. 5/30:10
Assessing suicide risk. 3/15:15
Atherosclerosis starts early. 9/30:9
Atlas of racial health inequalities. 5/15:18
A Web-based drug notification program. 8/15:15
Bad news for coffee and caffeine drinkers. 10/15:15
Barriers to rapid MI care. 5/15:16-18
Cancer from a weight-reducing herbal preparation. 8/15:15
Celiac disease more prevalent than believed. 4/15:12
Changes in the new immunization schedule. 3/30:12-13
Child abuse statutes on the Web. 4/15:13
Clinical alert from the ACC. 5/30:12
Clinical trials for pancreatic islet transplants. 9/30:12
Colorectal cancer awareness. 8/30:6
Consensus statement on diabetes in children. 5/30:12
Cord blood banking. 3/15:12
Depression, heart disease, and older people. 12/30:7-8
Dermatopathologists can prevent misreads. 7/15:14-19
Detecting thyroid dysfunction. 8/30:9-10
Dietary fiber and colon cancer. 7/15:19
Drug and vaccine development for children. 8/15:12
Drug treatment prevents stroke. 10/15:9
ERT does not slow preexisting heart disease. 10/30:9-10
Exciting new uses for MRI. 2/15:13
Finally a treatment for sepsis? 9/30:12
FTC shuts HIV test kit Web sites. 2/15:14
Flu shot news. 6/30:12
Four new sets of important guidelines and statements. 7/15:19-23
Gay health issues addressed at federal level. 4/15:13
Guideline roundup. 9/15:15-18
Guidelines for PMS. 6/30:10-12
Guidelines update. 9/30:12; 10/30:12; 12/15:9
Healthy information for minority women. 5/15:16
Healthy People 2010 to track health indicators. 3/30:11-12
High prevalence of restless legs syndrome. 10/15:15
Importance of PPG levels. 6/15:12
Inappropriate hysterectomy recommendations. 7/15:23
Initial stroke severity and race. 5/15:16
Medical error alert. 9/30:12
Medical errors: Implications for primary care. 2/29:13-14
Mifepristone and primary care. 12/15:9
Minority patients rate primary care physicians. 5/15:15
New atlas of cancer mortality. 3/15:12-15
New diabetes office test. 10/15:15
New dietary guidelines from the USDA. 8/30:6
New implications for lipoprotein(a). 12/30: 8
New on the Web. 9/15:12; 9/30:12; 10/15:15; 10/30:10
New primary care guidelines for domestic violence screening. 1/15:13
New subtype of type 1 diabetes. 4/15:12-13

New tests for diagnosing flu. 2/15:16-21
New vaccine approved. 4/30:11-12
Nicotinic acid safe in patients with diabetes. 11/30:11-12
No benefit from chest films in lung screening. 10/30:12
Office bone density testing. 9/15:12
One gene linked to age-related diseases. 6/30:10
Optimists live longer than pessimists. 4/30:12
Patients prefer physicians who use e-mail. 10/30:10
Payment for clinical trial care. 3/30:12
Policy on PSA testing. 5/30:10-12
Prescribing update. 6/15:12; 6/30:12; 7/15:16; 7/30:10; 8/15:12; 8/30:9; 9/15:15; 9/30:10; 10/15:10-12; 10/30:12; 11/30:12; 12/15:9; 12/30:8
Prostate cancer in black men. 5/15:15-16
Psychotropic drugs and children. 6/15:18
Radiology patient information. 2/15:16
Rare head-to-head drug studies. 9/15:11-12
Regulation of herbal medicines in foods. 9/30:10
Report cites role of antioxidant consumption. 6/30:9-10
Reporting risky drivers. 2/29:14
Resources for cancer patients. 6/15:18
Results from the second DASH study. 7/30:9
Reverse iontophoresis for monitoring blood glucose. 2/15:14-16
Revised growth charts. 8/30:10
Rosacea causes psychological pain. 3/15:15
RSV alert. 2/29:16
Rx to OTC: The debate begins. 9/15:11
Sharks do get cancer. 6/30:10
Sleep disorder developments. 10/30:10
Spanish CDC Web site. 7/15:14
Statins are safe for long-term use. 10/30:10
Stroke center recommendations. 8/30:9
Stroke survey. 4/30:12
The ACP urges antibiotic restraint. 7/15:19
Treatment recommendations for community-acquired pneumonia. 8/15:11
Troglitazone withdrawn from market. 5/30:12
Urine testing accurate for HIV screening. 1/15:13
Using office spirometry on smokers. 6/30:10
The final say on beta carotene? 2/29:14-16
The HOPE trial confirms an ACE inhibitor's effects. 4/15:11-12
The Surgeon General advocates for mental health. 3/15:11
The thyroid-cholesterol connection. 4/15:13
TIA treatment guidelines revised. 1/15:9
Trial confirms efficacy of high-dose ACE inhibitors for CHF. 1/15:8-9
Two new cardiac markers. 2/15:21
Warn asthmatic patients to avoid cooking with gas. 1/15:9
Where are all the men? 6/15:10
Would you prescribe RU-486? 8/15:11-12

Men's health

A novel strategy for individualizing erectile dysfunction treatment. 1/30:91-99
Helping patients cope with chronic prostatitis. 4/30:22-32
Restoring erectile function. 6/15:76-95
Testicular cancer: Increasing in incidence—and curability. 5/30:18-37
What you can learn from percent free PSA testing. 3/15:94-108

Musculoskeletal disorders

A rational approach to low back pain. 3/30:23-48
Diagnosing bursitis of the hip. 3/15:197-210

Neurology

Diagnosing and treating tremors. 6/30:55-66
Managing primary headache syndromes. 1/30:100-122
Parkinson's disease: Progress along the continuum of care. 12/15:50-74
Supportive treatment of Lewy body dementia. 4/30:85-90

Nutrition

Promoting weight loss in the obese patient. 4/15:204-218

Pain management

Taking the sting out of local anesthesia. 3/15:61-73

Patient information

About the flu. 10/30:41-42
Before you try herbal supplements. 10/15:69
Checking yourself for testicular cancer. 5/30:38
Eating to lower your blood pressure. 8/30:49
Foot care for people with diabetes. 5/15:134
Foot care for the person with diabetes. 9/15:61
How to examine your breasts. 3/30:80
If you have chronic pain. 9/30:49
Quiz on genital warts. 3/15:171
Learning about heart failure. 6/15:17
Myths about the common cold. 11/30:33
Preventing stress while caring for a person with dementia. 10/30:75-76
Seek protection from the sun. 6/15:111
Taking your blood pressure at home. 2/15:160
The Viagra story. 6/15:99
Using ice therapy to ease low back pain. 3/30:50
Using oxygen at home. 5/30:74
Using your metered-dose inhaler. 4/30:82
Water safety. 4/15:159
What are dust mites, and how can I get rid of them? 4/15:125
What every parent should know about head lice. 9/15:111
What is carcinoma of unknown primary site? 9/15:96
What you need to know about bacterial infections. 8/15:93

Pediatrics

Appendicitis in children: New insights into an old problem. 3/15:183-195
Controlling head lice. 9/15:99-107
Is a vegetarian diet healthy for kids? 3/15:111-128
No golden rules for managing fever in infants. 1/15:69-91
Rheumatic fever: No cause for complacence. 7/30:40-61
Skin abscesses in children. 4/30:37-55
The jaundiced newborn: Minimizing the risks. 1/30:45-69
The many pros—and a few cons—of breastfeeding. 4/15:177-190

Practical Briefings

A comparison of beta-blockers in heart failure. 10/15:19
Antidepressants and cognitive-behavioral therapy effective in panic disorder. 8/30:13-67
A sobering look at sexual and urinary function after radical prostatectomy. 3/30:14-16
Aspirin: different patients, different stroke risks. 4/30:15-16
Attacking dyslipidemia aggressively. 5/30:13-17
Cardiac outcomes in patients with intermediate-risk exercise ECGs. 3/15:25-26
Community-acquired pneumonia: Atypical may not be unusual. 1/30:15-19
Diabetes and CVD risks in African American children? The role of insulin metabolism. 5/15:23-27
Diabetes, hypertension, and antihypertensive agents. 6/15:27-30
Empiric antibiotics in meningococcal disease. 8/15:19
Hormone replacement and breast cancer: Balancing the risks. 4/15:26-33
Hormone replacement therapy linked to thromboembolism. 7/15:29
Hypertriglyceridemia: A dangerous family affair. 9/15:22
Identifying patients who benefit the most from implantable defibrillators. 6/30:19
Inhaled corticosteroids: No harmful long-term effects. 12/30:17
Ondansetron reduces drinking in early-onset alcoholics. 10/30:21
Panic attacks increase suicide risk in adolescence. 1/15:23-24
Prostate cancer screening: A refined strategy. 11/30:9
Simple, more effective asthma screening. 2/15:24-25
The last word on sudden death prevention in high-risk patients? 2/29:17-20
Weight loss reduces mortality in patients with diabetes. 12/15:13
What keeps depressed patients from committing suicide? 9/30:17

Preventive medicine

Steps to improve immunization rates. 5/15:93-111
The revolution in influenza care. 10/30:22-40

Psychiatry/behavioral health
